

WILLINGNESS TO SERVE FORM

All non-profit organizations rely heavily on its members to assist with activities that are identified as being important for the positive direction of the organization. We are trying to develop active committees within The Vermiculite Association and would like to ask you to volunteer your time and talent to the organization.

Committees will meet by conference call and will email and call each other to communicate. The average amount of time committee involvement should take is 1-2 hours each month. The more volunteers we have on committees, the more successful we will be as an organization.

Please volunteer to serve on a Vermiculite Association committee! Just complete the form below and return it to The Vermiculite Association headquarters at 2207 Forest Hills Drive, Harrisburg, PA 17112; via fax to 717-238-9985; or by email to tva@vermiculite.org.

2017 COMMITTEES

Meetings Committee – Jerry Austin, Chair

This committee is responsible for providing educational opportunities to members through meetings; increasing attendance at meetings; and educating members through YouTube and webinars.

Membership Committee – Jeffrey Sheehy, Chair

This committee is responsible to increasing membership by 5; identifying potential members, and communicating with previous members about TVA activities.

Technical Committee– Damien McDermott, Chair

This committee is responsible for assisting with educating the EPA on factual information related to vermiculite; encouraging members to adopt the product stewardship program; updating technical information on the website; obtaining and being aware of published papers, patents and chemical abstracts and sharing that information with members; and studying alternatives to using coarse ore.
